

## Step ②: Choose a Recycled Paper Supplier

Using recycled paper in your office 'closes the loop' - creating an environmentally friendly paper cycle. It is the most important part of the Local Paper for Surrey cycle because it protects the world's forests from being destroyed and creates demand for recycling.

We recommend  recycled paper because:

- it is made from the used paper collected from your office in **step ①**
- It is the **ONLY** recycled paper made from the UK's waste paper (as opposed to pulp imported, mainly from Scandinavia)
- the mill that makes EVOLVE™ has extremely high environmental standards and is based in Kent therefore minimising transport distances

There is a sample of EVOLVE™ paper included in this pack: **EVOLVE™ Office** is a general use office paper designed for high volume copying and printing. **EVOLVE™ Business** is a premium paper suitable for external reports and double-sided printing.

Your existing office supplier may stock EVOLVE™ paper. Why not call them and ask them to match your current price for EVOLVE™? They will want to keep your business so haggle hard! Alternatively, try our stockists listed below. Buying in bulk will reduce the price, and try mentioning that they were recommended by Local Paper for Surrey!

Stockist	Contact details	Suited for....and approx prices
<b>Now Staples Direct!!</b>	<a href="http://www.office-world.co.uk">www.office-world.co.uk</a> 0800 138 1310	Cheap online sales and store in Epsom (approx £2.59 per ream)
